# Cybersecurity Operations Solution

Protect Your Mission Through Modern Cybersecurity Operations

## THE CHALLENGE

### Cyber Threats Are Outpacing Traditional Defenses

Nation-state actors, ransomware groups, and insider threats are growing more sophisticated faster than traditional security tools and staffing models can respond. Limited visibility, slow response times, and compliance pressure create compounding risk.

#### Increasing Threat Activity

Cyber attacks grow in frequency and sophistication every year

#### Limited Visibility

Security teams can't see threats across fragmented environments

#### Slow Incident Response

Delayed responses increase operational and mission impact

#### Compliance Pressure

FISMA, NIST CSF, CMMC, and Zero Trust mandates require constant action

## OUR SOLUTION

### Complete Cybersecurity Operations — Not Just Tools

Synergistic Agility delivers a complete Cybersecurity Operations solution — combining Zero Trust strategy, SOC monitoring, threat detection, incident response, identity management, and compliance support as a managed, outcome-focused program.

## HOW WE DELIVER

Assess

Design

Implement

Monitor

Improve

# SYNERGISTIC AGILITY

## SBA 8(a)

Streamlined federal procurement

## IBM Partner

Certified in QRadar, Verify & Guardium

## Federal Security

FISMA, NIST CSF, CMMC expertise

## Zero Trust

OMB M-22-09 aligned practitioners

## 24/7 SOC

Managed detection and response

## Mission Focus

Protect operations, not just systems

### EXAMPLE USE CASES

#### SOC Modernization

24/7 threat detection with AI-assisted triage and SIEM optimization

#### Zero Trust Enablement

OMB M-22-09 aligned ZT architecture and identity controls

#### Incident Response

Automated playbooks reducing MTTR by 60% or more

#### Compliance Monitoring

FISMA, NIST CSF, CMMC continuous compliance evidence collection

#### Insider Threat Detection

User behavior analytics (UEBA) for internal risk identification

#### Executive Cyber Dashboard

Real-time cyber risk posture visibility for CISOs and leadership

### SOLUTION COMPONENTS

#### Advisory

- Security assessments
- ZT strategy
- Risk analysis

#### Technology

- SIEM/SOAR deploy
- Identity mgmt
- Endpoint protection

#### Accelerators

- IR playbooks
- Policy templates
- ZT frameworks

#### Managed Support

- 24/7 SOC ops
- Compliance reporting
- Threat intel

**Key Platforms:** IBM QRadar | IBM Verify | IBM Guardium | CrowdStrike | Microsoft Sentinel | Palo Alto  
*Technology supports the solution. It is not the solution.*
